Daily Backup Service Free Download PC/Windows

Daily Backup Service is a freeware backup software for Windows developed by CRNK Software Inc. A program designed to help you create regular backups of important data. Daily Backup Service installs itself in the system tray, silently keeping backups of your most important data at a time you specify. It will check your documents folder, home folder, downloads folder and much more for duplicates. You can then decide whether to keep them or delete the originals. You can also give Daily Backup Service a list of folders to back up, or a whole drive. And you can even schedule backup sessions. The backup software will run as a windows service. Download Daily Backup Service Guide for Daily Backup Service To make it easier for you to learn Daily Backup Service, I have listed here some key features that you can explore in detail. 1. Automatically Back Up Important Data Daily Backup Service is a backup software. It will make copies of the selected folder(s) on your computer at a specified time. This is what daily backup is all about. You can schedule them to happen automatically every day, once a week, once a month or even every three days. 2. The Unseen Tray Daily Backup Service will not take up valuable desktop space. It will place itself in your system tray. You don't have to see it. Simply set the time when you need your backups to happen, and you are done. It will start to make copies at that time. 3. Backup Windows Folders With Daily Backup Service, you can decide what folders to backup. From documents, pictures, videos, music to the programs you use, Daily Backup Service will make regular backups of your data in those folders. 4. No Interruption Daily Backup Service will not take control of your computer. It will not alter the setting of your computer. Instead, it will automatically backup your important data when you ask it to. 5. No Hassle Unlike many other backup programs, Daily Backup Service will not require you to do anything. It will just take care of backups for you. 6. Backup Your Data You don't have to worry about what data you have. Daily Backup Service will make copies of everything you have, ensuring you are not losing any data at all. 7. Keep Backup Safe With Daily Backup Service, you don't have to worry about anything. Since it will make a backup

Daily Backup Service [Mac/Win]

KEYMACRO is a great utility that can be used to control your multimedia keyboard. It allows you to use your keyboard as a remote control for your multimedia devices.
