The "uncompressed" format allows you to view the theme and place it on your desktop and change the pictures. Compressed format allows you to use the themes on a system that has only the WinRAR/Winzip/unZip program (ZIP/RAR/7Z/PEZ/UNZ/CDZ). In the compressed format, the pictures you used can't be changed and placed on your desktop anymore. The pictures you used can't be changed and placed on your desktop anymore. You need a theme editor to place them. In case you wish to delete the "uncompressed" format (which is not a problem), you can do it anytime during the installation (Control Panel-->Folder Options-->View File Types).
