

Microsoft Flight Simulator (FSX) RESTful API and user interface for user management. RECIP ENG CYLINDER HEALTHindex The upper 16 bits of the index is the engine number, ... This number will be change on each test set. Once this is set, you can use this variable to set the cylinder number for each of the engines on that test set. This is also useful when you can only have one engine and want all cylinders were the same. If there are multiple engines in the game, you can use the engine parameter to set a number for each engine for each set of tests.
