office tab enterprise 15.1.0.149 pre-activated 64 bit Russian version for Windows 10 Office Tab is a free program for adding left and right tabs to Microsoft Office documents. As a result of the name of the application, it says that the main task of this utility is to make it convenient to work both in Microsoft Office spreadsheets and in the Microsoft Word text editor. In addition to its main function, the application allows you to use tabs to view information about the document, and also supports quick work with bookmarks.
