Logistic quirks: This is a rather special collection. It has a rather different format than most of my AARs, mostly due to the fact that I had to separate storage into two different DLCs.

- This is on the "Skyrim" map on game, which has been in development since release. With over 700,000 words over multiple issues, the "skyrim" master is one of the longest running ones to date.
- S.T.A.L.K.E.R. 2: Survival Team Extreme Ratio is on "game", mostly because I don't think I

could install it enough times to adequately test it, even with multiple days. It has a lot of very unique changes.

(BACKSTAGE) Discord image and link to streamer WALLPAPER STREAM QUICKPOLL What is the name of this event and is it officially canon? Cocoa Cinnamon, December 30th, 2016 at 05:17 PM Generally speaking, a Cosplay Party is an event where any cosplayer may enter and is not limited to only a selected group of “cosplayers”, so a party event is not considered one as convention or larger companies. Hence, Winter Movie or the event's name should be included in the listing so it is easier to find later. BBQ Smokehouse Now Open in Bel Air! BBQ Smokehouse Finally Opening Tomorrow in Bel Air! The BBQ Smokehouse on Bel Air Ave. is now open for business! The owners of Smokeworks BBQ, one of Los Angeles’ best-reviewed Asian-American barbecue joints, are finally opening their next location. The original barbecue hot spot is located in the San Fernando Valley at 1612 Paramount Blvd. in Granada Hills, and is open for lunch and dinner. Now, owners Tim and Wende Snyder will bring the restaurant to the sunny West Coast. They will share their time-tested recipe of BBQ pork that they serve with their famous fried chicken, sweet potato mash, and BBQ veggies — all at a reasonable price. The menu has also been updated to include homemade kimchi, a Korean kraut, and other Southeast Asian dishes, as well as items that the Snyders grew up eating in the Midwest. “People around here love barbecue and like to listen to blues music, so our food is defined by its robust flavors and easy, assembly-line cooking,” said Tim Snyder. “It’s more affordable than ever to eat great, authentic barbecue at home, and our menu features a classic barbecue five-meat combo.” The BBQ Smokehouse will offer a complimentary five-meat combo appetizer including any three of the following: Pulled Pork,

Based on the book by the same name, Will Smith and Tom Hardy lead an international team to crack an eccentric criminal's maniacal plot. As A.I. Mastermind Samaritan and his team attempt to control mankind's destiny, they will stop at nothing to keep humanity in its place. Featuring two distinct stories, each chapter has a separate gameplay experience that is tailored to your play style. You can play individual chapters or combine them to create your own world to live in!... A novel narrative with a unique gameplay experience that combines the best elements of Choice and Time. The characters progress to get the most experience points through completion of each chapter. Can you beat the game before we are completely out of time? Some pages at the beginning require clicking in order for videos to play, the audio to sync, etc., and this requires Internet connection in order for you to experience that section of the game. * If the Internet has been disconnected, you will still be able to play the game in your browser if you'd like.* The ending of the game is entirely up to you. You can replay the game to see different endings, or choose to just watch the credits. This game is different from so many other games in that it's not on a linear timeline, or a story with only one ending. Even though you can load your save state, you won't be able to relive any previous choices. You are "locked" into the current choice, and the choice you make will always stay the same. If you've never played before, you should probably try to beat the game first to see how you like the experience. This is a game for the entire family, featuring strong dark themes and sometimes gruesome imagery. If you don't like those things, you can skip it and just watch the credits. This is a Choose Your Own Adventure game - similar to those written by S.E. Hinton, but also inspired by the first level of Dazzle. You will be presented with many choices, and you can go at your own pace. However, at the beginning of each chapter you will be presented with a choice - "Choose this, or go to this other chapter" - which will impact the rest of your game. If you are unfamiliar with the format of Choose Your Own Adventure books, the first thing you should know is that once you make a choice, you'll never be able to change that choice. Your choices will always stick

Q: Mysql Display tabular data to php page using fetch() I have 3 tables categories products product_tags The table structure is as follow Category Name Description product product_name the name product_tag category_id category Where I would like to display the data if a product has a specific tag. I can print out the first column like this \$sql = "SELECT * FROM products"; \$result = fetch_all_rows_assoc(\$sql); while (\$row = \$result->fetch_assoc()){ print \$row['product_name']; } Now how can I use print \$row['product_name']; to display the "name" column for that row product. I have to have this done using just the fetch() method so I can pass an array containing product details to display. My problem is that I'm not sure how I can get the data to print out in the corresponding "name" column as I have no ID's set in the \$query. My desired outcome would be to have the product details display using the PHP page echoed on the page as product name 1 product name 2 etc, But best would be when the table is printed out on the page.

A: Try this Query as : SELECT * FROM products WHERE category_id = \$_GET['id']
