Some pharmaceutical agents such as vasodilators, analgesics, steroids and the like are poorly soluble in the aqueous body fluids of an animal, and are therefore administered in a solution, rather than in the form of a tablet or injection. When a pharmaceutical agent is delivered in this manner, large volumes of fluid are introduced into the body and require disposal through the urinary and other bodily excretory systems. However, many of these agents are

highly toxic and often require very specific therapy and frequent dosing, thereby making urinary discharge a less desirable option. Further, many of these agents may require long-term treatment and repeated injections. One way of delivering a pharmaceutical agent to an animal is to form a suspension of the agent in a suitable vehicle, or other carrier, and administer the suspension by injection. One of the problems with such vehicles is that the agent may be deposited into aqueous body tissues, rather than into the circulatory system, and thus not be able to reach the desired site of action. Another problem is that while in suspension, the particle size of the agent is typically quite large, often much greater than 2 microns. This limits the passage of the agent through the capillary walls of the blood vessels, and also limits the solubilization of the agent in small compartments in the body, such as in the interstitial space and lymphatic system. Therefore, a carrier for a pharmaceutical agent, one that will keep the agent in suspension, and one that will permit passage

The present invention relates to cooling systems for gas turbine engines and more particularly to an apparatus and method for providing a uniform oil level within a gas turbine engine. Gas turbine engines are used in a variety of applications including aircraft engines and auxiliary power units. A common type of gas turbine engine for aircraft use is the turboprop. A turboprop engine includes a cross flow fan assembly having a fan and a plurality of fan blades. The turboprop engine also includes an annular array of airfoils (impeller blades) that are rotatable within a cooperating airfoil supporting structure. The impeller blades extend radially outwardly from a central hub and are driven about a generally vertical axis by the gases exiting the cross flow fan assembly. The impeller blades draw the gases of the fan assembly to the rear and displace the gases to the sides of the engine through a pair of generally curved shrouds. The shrouds guide the gases to the inboard end of the engine where combustion occurs. The engine also includes a combustor. The combustor includes a circular array of vanes which define a passage in which the gases of the engine are mixed prior to combustion. The combustor also includes a combustion c9d1549cdd

Just to get into it, first: I love castles. I'm not even joking. I kind of feel like if I were to, say, take my clothes off, I'd want to be in a castle. So naturally, when I came across Defend Your Castle (PC) Added: May 7 2014 Full VersionDefend Your Castle (mobile phone game)Game details: Defend Your Castle platformer, arcade, action What I Think: an awesome little game where you have to defend your castle for as long as you can in three different modes, and you can use nintendo-style amiibo figures in fun ways to unlock new characters and equipment, which might take a while to unlock with the normal game enjoy Download it: itunes.com/free/-P1_AJAnAD4K-Defend Your CastleDefend Your Castle : iOS | Google PlayDefend Your Castle : Android platformer, arcade, action What I Think: Defend Your Castle is a cross between Match-3, tower defense and action platformer game with a big emphasis on nostalgic design and oldscool charm. First, a brief introduction to what game developers think about retro games: John A. deleted: April 5 2014 Full versionOkay, first: I hate towers. If it was up to me, no tower defense games ever would've been made. They're just too difficult for me to figure out why I should play them. But Defend Your Castle, while it does feature towers, it's not a tower defense game. How did it get to be so difficult? Well, first you have to realize that Defend Your Castle's design really isn't that hard, but added: April 6 2014 Full VersionDefend Your Castle (mobile phone game)Game details: Defend Your Castle platformer, arcade, action What I Think: Defend Your Castle's got a lot in common with Tower Defense games from previous ages: I have to take down a certain number of enemies to complete the stage. The only problem with that is that a lot of enemies come at me at once. I know that I enjoy Download it: itunes.com/free/-P1_AJAnAD4K-Defend Your CastleDefend Your Castle : iOS | Google PlayDefend Your Castle : Android platformer, arcade, action What I Think: Defend Your Castle is a cross between Match

L.E.S.-Trial ongoing study In the ongoing clinical trial ongoing study, P.I.D.L.E.S.-Trial, which is jointly led by the Italian Institute for Pharmacology, Clinical Pharmacology and Pharmaceutical Chemistry (I.I.B.C. in short-I.I.P.D.C.), the Research Institute of S.E.A.R.C.S.A., TUCO-MEDICINA

The Italian Institute for the Clinical Pharmacology, in collaboration with the clinical research organization (CRO) PharmaQuality Audit, is investigating on the efficacy and safety of P.I.D.L.E.S. as a cardiovascular therapy, in mild to moderate heart failure. The Multicenter, Open-label, Randomized, Controlled Trial is enrolling patients with mild to moderate heart failure, NYHA classes I-III, chronic obstructive pulmonary disease with resting dyspnea, and preserved left ventricular function, LVEF \geq 45%, and elderly patients. This means that patients with severe heart failure or those with NYHA classes IV and V are excluded from the study. The study started in January 2008, on a total of 56 sites across Italy, with the objective of enrolling 250 patients, randomized in a ratio of 1:1. The study also included a partial complement of patients in a subgroup of 14 European countries, namely: Belgium, Czech Republic, Germany, Greece, Hungary, Ireland, Israel, Malta, Romania, Spain, Sweden, United Kingdom, Turkey, and Ukraine. The objective of the clinical study is to compare the efficacy, clinical safety, and tolerability of the following two therapeutic strategies in the treatment of patients with mild or moderate heart failure: P.I.D.L.E.S. + Maximum Dosage of Intravenous Diuretic (Gentamicin + Furosemide); Maximum Dosage of Intravenous Diuretic (Gentamicin + Furosemide); Max. Dosage of Intravenous Diuretic (Gentamicin) alone and Standard Care + Maximum Dosage of Intravenous Diuretic (Gentamicin + Furosemide). Study designed to analyze the efficacy of P.I.D.L.E.S. in patients with chronic heart failure and reduced ejection fraction 26 patients enrolled at the study sites in

Experience the menace that is creeping over the edge of the continental US. Fight through the swamps, battle gargoyles and immortals, and lead a team of bloodthirsty

mercenaries as they seek to terrorize the citizens of Texas, New Mexico, and the surrounding area with their brand of fatal evil... Godbound is a new God game. it is about Gods teaming up to save the world. This is the story of how the world was created. It is about a clash of religions and belief systems and ideologies. Elements of this story were inspired by real world events. It is also a fun story that has humor. My goal is to have long lasting fun that will be remembered and enjoyed for years. First, Second and Third Person Video Games are a part of my life. I have been making them for years. I love movies and have always wanted to make my own video game. I am currently making a turn based strategy video game. It is currently in Alpha. This is going to be more like a MMO and will be fully published. You play as a character who has to be able to both shoot and move at the same time. You can issue commands to other characters and your ship to do things. I hope you enjoy. If you do, please tell everyone you know about me! The gift of a few short years in which to pursue the aesthetic and stylistic expression of her passion for personal artistic expression, and to discover her long-held dream of the possibility of making her own games, has proved to be, at the minimum, one unquantifiable measure of making this woman's life count. Rather than, say, a 17-year-old kid in a smart car, desperately trying to make it to her next gig in music, or a pre-med senior in need of a head shot to get into med school, Kryo Kat was that 19-year-old kid in an older, dilapidated late model Ford who decided, after a haphazardly patched-up project, that it was her calling. It's a good thing she made that decision, because she's still here, making her dreams come true, and we're very glad for it. Hey all, You may be wondering what happened with my project, SwordBreath, an RPG Maker role playing game (RTPG) from my earlier days of making games. It
