Guides how to improve character via a Live Guide

We have developed a scenario-by-scenario "Live Guide" that can be played while progressing through the game. The Live Guide differs from the Game Guide in that the objective set for the guide increases in difficulty as you go, and it also changes and develops as you experience the game. It is a great tool that makes it easier for you to get through tough spots. We recommend that you use the Live Guide before starting the game to be able to get ahead.

As you progress through the game, you can also discover Items that you can equip to your character. These will increase your proficiency in terms of muscle strength, magic, skills, etc. Due to the Live Guide, we have also added a Guild Affiliation guide to the game. We will now provide you with Guild Affiliation items freely so that you can enjoy a more comfortable gameplay environment. Guild Affiliation can also be obtained by following the instructions for transferring items to the game through our official website.

For more information on the features of the game, please read on below. For now, if you have any questions or concerns regarding the game, feel free to contact our Customer Service.
