- Our hero finds himself imprisoned inside the factory - Find and steal the remaining ammunitions to escape through the back of the factory - But the problem is, the factory never lets him go. - Creators want that this part of story would be a - arcade game and the end of the story will be a The instructions: -1. Download "Slave: Ghost" from -2. Run the game and input the code -3. Enjoy!Q: Create Generic Function to get Names of TBase Type's Properties I have a class that has TBaseType properties. If the type was "int" I'd like a function like: TGetProps() And it would return me the name of the "value" properties of int. I know that I could just use reflection, and get the properties off of my type like this: TGetProps(Obj) { Type t = Obj.GetType(); PropertyInfo[] ps = t.GetProperties(); // Do something with ps, like create a list of names... } But I was hoping there was a more elegant way, like: TGetProps() which would allow me to call the function without having to know specifically what my base type is. I know that this isn't possible, but I thought I'd ask just in case there's a method for it. A: You can use the Type class to get the type generic information, like so: private static readonly Dictionary propDict = new Dictionary { { typeof(Decimal), "Value" }, { typeof(SByte), "SByteValue" }, { typeof(Byte), "ByteValue" }, { typeof(Int16), "Int16Value" }, { typeof(UInt16), "UInt16Value" }, { typeof(Int32), "Int32Value" }, { typeof(UInt32), "UInt32Value" }, { typeof(Int64), "Int64Value" },

### Features Key:

- The remote world the game is based on is based on the Alternate Reality Game **'They Came From Salem'**. This website is a set of sites inspired by this game as well as other games based on the fictional town of Salem.
- The game is a first-person shooter based heavily on Survival Horror and plenty of horror-based elements, such as The Purge.
- Hunt: Showdown is a sandbox experience allowing for infinite explorable environments and a wide array of weaponry, allowing players to survive as they see fit.
- Hunt: Showdown is a game with no singular storyline, its story will unfold as players progress through the world.

The Baby Dream has been invaded by a clown, a lion, a dog, a maid, and a unicorn! A strange enchanted holiday has suddenly come to the beach area. Play and have fun with Kotaro's swimsuit at the same time. Here you find the Christmas Special, several time-limited exclusive outfits for Kotaro, a new Baby Dream game mode, a new Halloween special, and an awesome Christmas special! It's a fantastic addition to your collection. Join them on the way! Experience thrilling adventures with Kotaro while playing dress up with his swimsuit. Get fun right away. Inventory System Qu begins by thinking about her travel plans. She then picks up a bathing suit. Kotaro finishes up his bath and carries the tub towards the Baths. He does not notice that Qu has changed his outfit for a swimsuit. This is where the inventory system comes in, making it easier to find everything you need. Inventories When Qu sees Kotaro walk out of the Baths, she goes to a room with more bathing supplies and puts Kotaro's outfit away. Kotaro himself, however, has already put his costume away. In her room, Qu buys new bathing supplies for Kotaro. She picks up a bathrobe, pajamas, and cosmetics. This is one of several reasons why Qu decides to use the bathroom everyday. This is an inventory feature that provides a built-in storage system in the game, saving you time and money. Playable Character Qu is a playable character who has an interesting career in the bath. She is fun, mature, and independent. She is like any other woman, but she is different from a woman you have seen before. You'll always have something to find with the baby, who definitely knows how to have fun! Kotaro is about to go on his first adventure. Over at the airplane, a strange creature alerts him to a missing plane. First, he is going
