Notebook Pro; 2; Notebook.Q: image hover over another image, using hover effect cause problem in a link I'm using a hover effect for my images. I have hover effect for image as well as for link but there is a problem. It seems that the link wont work under the image... See the image? (I want to change the background color of the div next to the link) But if I use just hover on img, it wont effect the link. I'm thinking something maybe the link div next to the image is overlapping the image(by using absolute position). But I have no idea how to solve it.
