DESIGNED BY LINK STARTING AT THE 2013 INSIDER COSPLAY SUMMIT. The Elden Ring resembles the FIP FIVE (Fantasy Interactive Pictures Five), a role playing game set in an imaginary world in which the goal is to unite the evil forces of "The Darkness" and the heroes called the "Elden". To this end, the Elden Ring is in a different world, and the world of the Elden Ring has been built from the legendarium of the Elden (which is closest to the world of the FIP FIVE).

The story will take place during the timeline of the Elden Ring when, during the time of "The Darkness" (which is a medieval fantasy that will learn about the modern times), the Elden receives a message that the Darkness has begun expanding. And so, they will leave the world of the Elden to save it from the darkness. To this end, banded together as "The Elden", the heroes will dare the challenge of the darkness. And as they venture forth into the darkness, they will acquire the power of the FIP FIVE.

The premise behind the Elden Ring will be that it will be an RPG set in the world of the Elden. As a special action RPG, the game is easy to pick up, and the story and the characters are fun to watch and to play with. Players will be able to freely create the fate of their character, and shall likely gather together to explore the vast world over several days. The game is a personal action RPG. The main weapon is your character's sword, and as they battle they will gather experience points to increase their skills.

All of the action RPG games of the past were created for consoles. With Elden Ring, we have created a game that can be played by the PC as well. The familiar style of a controller or keyboard will be supported in the game, and we will be developing the game as if it

Update : 10.4.5 | How to Change Magic Items

At 9:30PM CST (9:30AM PST, 10:30AM EST), we will release an update to test server changes as part of our internal QA testing in preparation for the Public Release: PR: On the Mage Update: Create or Change Magic Items - by Mateusz. Overview: Mage update will introduce a mechanism by which NPCs can create a new magic item for you in the "Find Magic Item" area of The New Current Zone. As a result, the process of creating a new type of magic item will be very closely integrated with the player base as we're truly changing the way Magic Items are made. Additionally, the new system will be used to create changes to the creation of existing types of magic items (such as creating new weapon materia and rebirthing), and will allow us to make changes to the appearance of magic items. While the system will only affect NPCs, at

some point, we'd like it to be an option for players to use as well.< Basically, it will be a different way of making new magic items. 12.29.2014 : Charcoal and Onionbeard announced it, here is the content of n1.1 : *Muleshine should be changed with a formula that will improve the usage rate.
