In This Chapter Checking out the basic tools Manipulating images for the Web Applying and editing camera RAW files Getting your best photos on a smartphone Photoshop Elements is the complete package for basic photo editing. You can use the program to make changes to individual photos, edit whole groups of photos, perform basic photo retouching, and correct problems you encounter when shooting (like lens distortion or poor image quality). If you are already experienced with Photoshop or another traditional image-editing program, you may still find this program useful. Elements represents a complete rethinking of how Photoshop works on a tablet, and the learning curve is never too steep. Like Photoshop, Elements has a layer-based editing system in which you can do just about anything to individual layers. Unlike Photoshop, Elements works with layers for the entire duration of an edit, even if you save your image. Elements provides many tools for creating text and other text-based objects that are invisible layers. And just because Elements includes so many tools in the editing area, it doesn't follow that you'll always use all of them. If you see a tool that does the job, you can apply it to your photo right away. If you don't have a lot of patience for learning how to use Elements, I suggest that you first master Photoshop and then move to Elements. Photoshop is still the industry leader and still the program many people turn to first. It's relatively easy for you to learn if you have both programs. ## What Can You Do in

Ischemic stroke in the young: report of two cases of cardioembolic stroke. We report two cases of cardioembolic stroke in a young age group: a 23-year-old man and a 42-year-old woman. Both had sudden onset of focal neurologic deficit, followed by recanalization of the occluded blood vessels on imaging studies. Cerebrospinal fluid (CSF) studies showed elevated protein levels in both cases. Treatment with tissue plasminogen activator (t-PA) was effective in one patient. # AUTOGENERATED FILE FROM balenalib/orbitty-imx6q-ubuntu:eoan-build # remove several traces of debian python RUN apt-get purge -y python.* # # > At the moment, setting "LANG=C" on a Linux system *fundamentally breaks Python 3*, and that's not OK. Catch Josh at the Rise Up Wildcats' booth or in the stands as he brings with him a unique perspective on what's been happening with the Wildcats this season. Getting ready for a game. I will be in the locker room prepping for the game. Playing My Time. I will be in the game to support my team. Playing for the people. I will be in the game to represent the people and the university. Reaching for glory. I will be in the game because there is still something out there that we can be the best in. Playing for the University. I will be in the game to honor our University. Hitting the road. I will be in the away game to support and build relationships with other fans. What do you think is the most important thing a coach can do for his/her team? Coach Cook has done a great job so far this season. The biggest thing a coach can do for his team is instill a great work ethic on his/her players. So far, Cook has done a great job at that. The second most important thing to do for a team is to communicate with the players. Cook is now doing a great job at doing that. What do you think the most important thing to do with the Jordan Lett time is? The biggest thing for me is to just have fun with the time that I have with my child. The player that I feel like is most on the cusp of getting back to where they were prior to what they had done last year. I just want to see more time before going home. I feel like that is the best thing right now. What is your favorite time of the week on campus? For me, my favorite time of the week is probably during game time at home. The seats are where they belong and I love to watch my Wildcats. Where are you from originally? I'm from San Antonio, Texas and I'm from a family of girls who watch cheer
