As the recent terror below the waves becomes more than any government could handle, all-out war has broken out in the oceans. Now, bizarre sea creatures prowl the deeps, intent on gobbling up any creature unfortunate enough to take a stroll. The sea bottom is full of land mines and biological weapons, and the skies are teeming with alien ships - all of which were quiet before the destruction of the alien city of the Deep. In addition, the Earth's communications system is based on the now-defunct black hole network, and now anything not secured by means of deep space encryption must contend with

changing spacial readings and signal distortion. Escape the alien attack to the enemy free zone deep beneath the water. Organize your team of UFO Hunters and prepare to meet the aquatic dangers that lurk in the depths of the oceans. You will need to build your own naval fleets, launch your own retaliatory strikes and track down X-COMs hidden among the water. A cross between a strategy game, role-playing game and conquest simulation. Facing the alien terrors under the ocean, the most promising strategy is to spread your own tactical might all over the map. Cooperation and team play are the order of the day. A new type of game play - undersea. Graphics based on a real-life Undersea Geography Nearly 300 types of undersea flora and fauna including sea monsters, Minotaurs, Spasmodians and more Actual undersea geoscape mapping system with rich topographic detail. Full array of undersea military technology. The players can enjoy a first-hand experience on the key events of the Undersea War from the perspective of both nations and aliens. The player can command an undersea navy and explore the undersea environment to gather intelligence. A change of landfills allows you to survey unexplored areas with a decrease in cost. With an increase in intelligence, you can procure more advanced military equipment for your undersea fleets. A cross between a strategy game, role-playing game and conquest simulation. Key Game Features: - Undersea Warfare - A New Battle Fantasy - Beautiful, Naturalistic Graphic Environment - Hundreds of Undersea Species and Valuable Resources - A New Type of Game Play - Undersea - Create and Call on a Fleet of Undersea Hunter Vessels - UI Features You Can Experience in Real Life - Nearly 300 types of Undersea Flora and c9d1549cdd

## **What's new in One More Game:**

**Victor Christmas is back! This time, we'd like you to tell us how we should color Victor. We're using this for an event we're planning with the artists on Facebook, and we'd like to use your help on how we should color Victor, as it'll be useful for the artists to have an idea. A few things to note on this: - For this coloring contest, you do not have to choose the coloring of Victor. That part is left to the artists' discretion and experience. Choose some color concepts, maybe what they want to do with Victor, or maybe it would be interesting to see how different artists color him. - You don't have to include everything we ask, but please don't leave out anything. - You do not have to be a mangaka or animator, you may be simply a fan or just someone who wanted to color our picture for the contest. ----- So, here's the deal. Victor was first shown in an Anime Freak! and since the idea was pretty good, we decided we'd like to see what fans would come up with, and the winner was raised into the unique idea of Victor in the next issue of Odaira! Here's the second picture. As you can see, this second picture is quite a bit more different. It's much more serious in tone, and while the background sort**

**of gives off a small hint of Christmas (as it does in the first one), the main subject isn't used very much. In fact, the best part of the picture is actually the background. It's a reference to something about ki without going into the actual subject. Which is also not Christmasy. Anyway, the point is, this second one isn't something we could've done without the input of the artist or fans. Here's a question for you: - What design do you think Victor is best suited to? Winter or Christmas? Both aspects are quite useful for Victor's design, but which one do you think is his strong point? Christmas gives him the aspect of being a noble man, but it can also make him come off as a bit too cold and serious. Winter has to do with the aspect of enjoying life. The character can't be portrayed too warm or too cold though. If it gets too one way, it might just come off as the same thing. A perfect balance is best. But**

Jump into a mysterious world in search of the cure to your internal struggle. You wake up to find yourself in a vacant home where the only clues to your true identity are the creepy, but seemingly normal, neighbor who will taunt you day-by-day. But the home is anything but what it seems, and you must discover the truth before the situation turns deadly. It's a mysterious plot that had everyone guessing. Now it is time to unplug and uncover the truth behind the truly sinister series. It's time to unravel the mystery of Dr. D'Urso. Last year, a strange man approached an old family friend. He is the person who helped him get started in the scientific industry. Dr. D'Urso is his test subject. The man who approached him is out to finish what he started, even if the man turns into a demonic husk in the process. It's up to you to uncover the truth behind the sinister series and fight off the evil as you try and escape. The game was to be titled Duralumin. The protagonist was to be Dr. D'Urso. Black & White Photo Stop This is a little project done to some game I am just finishing. I made the main characters, and all of the props. TODO: -More characters -Making the level -Add in more sound,music,etc. -Update to what happened to the game over time. Let it Snow This is a horror-survival-strife-puzzle game I made. The original idea, was to make something with everyone of those themes. I made it with the theme of "Day of the Dead". -I have no dead bodies -There is no zombie story or anything like that -Planes never actually crash. -No humans live in the one world that I made. -No one has guns or anything like that. -Only a few cameras. -No one is a survivor of anything. -No one is helped by anyone, because they don't have any help -But there are Snowballs. This is a prequel to the game All That Is Left. When Life Dies is a story that shows the tragedy of what happens to two scientists trying to create an artificial womb for woman. The game was originally made for the Ludum Dare, and is now for more people to play. \*PLE
