Jab We Met in Hindi Movie Download - Video Songs.Toolkit Finished desktop icons. Now that the application is ready to be used, there are still a few things to do. The first is to set up the icon on the taskbar. Open the information tab and right click on the icon in the applications list, then select properties. Set up the icon according to your preferences. You can set either the icon or the image as the icon, you can use the new icon in the Advanced tab or you can choose an image. Choose the image and click ok. The image should now be used on the taskbar next to the application and you should get a nice looking icon. Finished desktop icons. Once you have the icons setup, you should be able to bring up the application from the taskbar. To do this, go to the Start Menu and

---

type in the name of the application. Go to All programs and you should be able to find and open the application. Finished desktop icons. Setting up the desktop shortcuts is almost the same as the taskbar shortcuts. Open the information tab of the desktop shortcut in the apps list and you should be able to set the name of the shortcut and the icon for the shortcut. On a second monitor the shortcuts to the application will move to that monitor, so if you want to have the second monitor dedicated to the application, you may want to put the second monitor first. The final step we will be doing is to put the application in the start menu so that it will be easy to access. To get to the applications list, go to the Start Menu and click on the little down arrow in the bottom right. Finished desktop icons. In the list of applications the newly created icon for the application should appear. If the application is not on there, then double click on it and it will get added to the list. If the application is there, you can now add it to start menu by right clicking on the application in the list and select properties. Finished desktop icons. Set the Start Menu folder to the place where you created your desktop shortcut. It should be added automatically and you can now double click on the shortcut to launch the application. Finished desktop icons. That is pretty much it for setting up the application. You should now be able to click the icon and open the application. Finished desktop icons. 6d1f23a050
