# S Glow After Effects \_BEST\_

Setting multiple instances of your own glow effect with different settings and blend modes can sometimes lead to this result. If this happens, then do not rush and delete everything. Let's see what this effect is and how it can be corrected. And so, in this article I will tell you how you can fix this error in Photoshop: When you hover over the image, the following inscription appears: . At first glance, it seems that this is a Photoshop glitch, or at least a corrupted image, but it is not. This is the result of the glow effect not working properly with multiple background options.
