As a result, your phone should be able to access 3D resources so that you can play 2D games, although the games may not be as perfect as in the 2D version. However, 3D games will work better. The game should run flawlessly, even on an old galaxy model, however, don't expect the game to not work on all smartphones. This is because Android can't load the 3D app so it won't work.
